

How Acrylic Texture lasts longer

When specifying a new project, insist on **FLEXIBLE ACRYLIC TEXTURE**, not just painted cement render.

The *AcraTex* 3 step system encapsulates the walls in a membrane envelope acting as a barrier against adverse weather conditions for years longer than cement render.

Available across the full Dulux® Exterior colour range.

The AcraTex® 3-step coating system

Suitably prepared masonry substrate (refer to *AcraTex* system guides for detail)

AcraTex AcraPrime™

More than just a “first coat” *AcraPrime* consolidates the substrate providing a stable base for long term integrity.

AcraTex Coventry™ (Range)

High Build Acrylic Texture up to 40 times thicker than paint, providing feature style and Acrylic Texture durability with colour integrated throughout.

AcraTex AcraShield®

Elastomeric Barrier coat protection up to 3 times thicker than paint – *AcraShield* is the system lock that ensures maximum resistance to the elements and extended system life cycle.

The *AcraTex* System with it's flexible Acrylic Texture coating guards against degradation. Ordinary cement render is hard and brittle leading to typical problems like these.

CRACKING

Cement shrinks as it hardens & expands/contracts with temp. Low build paint systems are typically unable to bridge render cracking.

EFFLORESCENCE

Salt blooming over the surface & concentrated leaching at cracks can occur leading to discolouration and potentially peeling.

STAINING

Inferior paint systems hold dirt & can allow moisture ingress. Moisture attracts and magnifies surface contaminants.

COLOURS
for your new home

*Feature colour available only with AcraShield system topcoat. Printed colours are as close as practical to actual colours - refer to actual samples for exact colour.

When specifying your new home, insist on Flexible Acrylic Texture - not just painted render cement. The *Dulux AcraTex* acrylic texture system encapsulates walls in a high build, flexible skin which acts as a barrier against the elements, protecting your investment for years longer.

Dulux AcraTex products are designed to be used in system as specified in relevant Product Data Sheets and Approved *Dulux* Specifications. A 15 year material warranty is provided when a Full *Dulux AcraTex* system including 2 coats of *AcraShield* is applied by an *AcraTex* registered Applicator. If the product does not perform as specified, unless otherwise detailed, we will replace the goods free of charge. To make a claim under warranty, please contact Customer Service by telephone or post using the contact details provided on the product label. You must show proof of purchase and bear all expenses incurred in making a claim. The benefits of this warranty are in addition to other rights and remedies under any applicable law. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if they fail to be of acceptable quality and the failure does not amount to a major failure.
